ELECTRA LIFT CO.

## electra lift – 24 hour service

24 hours a day, 365 days a year, you can be assured that Electra Lift is there to provide emergency breakdown service. We know how important your lift service is to you, therefore, priority is always given to breakdown work.

## customer service

Electra Lift concentrates on individually tailored packages that accommodate the needs of our diverse client base which include home units, office buildings, hospitals, shopping centres and sporting complexes. Since the 1970's our dedication to customer service and our ability to provide personal attention has enabled us to continue to expand.

## maintenance

Electra Lift understands the importance of servicing your equipment to maintain reliability and performance. Our trained mechanics carry out routine maintenance on your lift installation to ensure your equipment continues to operate in a safe and efficient manner.

## assurance

For customer assurance and peace of mind, Electra Lift holds all appropriate risk insurances including Public Liability and Workers' Compensation. As a member of the AEA (Australian Elevator Association), we are constantly kept up to date with the latest technological developments within the lift industry.

## modernisation

Our upgrading and modification work ranges from new control systems to the design and fit out of lift car interiors. Electra Lift also implements safety items to bring your lift equipment into compliance with current regulations. If required, we will happily show you our work carried out on similar lift installations.

## replacement parts

Electra Lift services a broad range of lift and escalator equipment manufactured both locally and overseas. We stock a comprehensive range of spare parts to cater for all makes of lifts, plus we have the ability to manufacture and repair parts in our own factory. Thus Electra Lift can readily supply replacement parts resulting in a minimum of downtime.

## design & technology

Electra Lift's design, development and implementation of programmable logic control systems have provided our clients with an affordable method of producing a more reliable and efficient lift service. Our PLCs are highly adaptive to suit your specific needs, often used to overcome design shortcomings of current systems, both old and new. The results are enhanced lift performance in quality of ride, function, safety and reliability.

## electra lift – management

Electra Lift maintains and controls all administration, sales and accounts from our head office in Mascot, Sydney. Our Managers and Supervisors are available to answer your questions and our Sales Representatives are happy to meet with you to discuss your specific needs at any time.

At Electra Lift, our aim is to provide customer satisfaction, offering cost effective maintenance and repair programs without compromising on quality of service. Whatever your requirements, Electra Lift will strive to deliver you the best service possible to maximise your lift's potential.

For a customised quotation, contact Electra Lift for a direct assessment of your needs.
