

ELECTRA LIFT Co.

efficient
reliable
customised
ethical

Electra Lift is a Sydney based elevator company who understands the importance of service, reliability and performance. For over four decades we have provided a comprehensive range of services to a growing number of customers in need of cost efficient lift maintenance, repairs, modernisations, replacements and new installations.

24 hour service

24 hours a day, 365 days a year, you can be assured that Electra Lift are available to provide emergency breakdown support. With our call centre operating around the clock, GPS locating allows us to dispatch the closest available technician.

customer service

Electra Lift concentrates on individually tailored packages that accommodate the needs of our diverse client base which include strata buildings, commercial premises, hospitals, shopping centres and sporting complexes. Since the 1970's our dedication to customer service and our ability to provide personal attention has enabled us to continue to expand.

maintenance

Electra Lift understands the importance of regular, quality servicing to maintain reliability, safety, presentation and performance. With a wealth of experience and up to date training, our technicians are well suited to carry out maintenance and repairs on lifts from a broad range of manufacturers.

modernisation

Lifts, like all mechanical equipment, will suffer from wear and tear with age. Parts eventually start failing to deliver the reliable and consistent operation that would be expected. At Electra Lift, we draw upon our many years of modernisation experience to put forward recommendations and customised upgrade options. We work together with owners to find the best long term solution for your lift equipment.

full replacement

Electra Lift has been replacing lifts throughout Sydney for many years and use only trusted and reliable suppliers. We source globally known, commercially available lifts that fully comply to the Australian Standards and SafeWork NSW requirements. When existing lift installations can be improved no further, we can provide full lift replacements with custom designed elevators to suit any existing lift shaft. We offer a wide range of options to meet every unique building.

“ We combine industry trusted lift components, to create the perfect package to suit your building. ”

Electra Lift understands the importance of servicing your equipment

our showroom

We have a showroom located at our Mascot offices if you wish to come by and see what your lift could look like. It houses various lift interior options, button panels and a functioning Electra Lift controller. As all of our lift interiors are custom designed and manufactured in-house by our very own carpenters, the possibilities are endless.

assurance

For customer assurance and peace of mind, Electra Lift holds all appropriate risk insurances including Public Liability and Workers' Compensation.

management

Our management team and supervisors are always available to answer your questions. Our sales representatives are happy to meet with you, at your building, to discuss your specific needs and how we can help. Contact us today.

At Electra Lift, our aim is to provide customer satisfaction, offering cost effective maintenance and repair programs without compromising on quality of service. Whatever your requirements, Electra Lift will strive to deliver you the best service possible to maximise your lift's potential.
